

# What is a Directive to Physicians?

*Also Known As A "Living Will" or an "Advance Directive"*

## What is it?

This document is designed to help you communicate your wishes about medical treatment sometime in the future when you are unable to make your wishes known because of illness or injury

In the Directive, you are given the option to select specific treatment options you would like if there comes a time when you are not able to make medical decisions due to illness or injury.

You can select what happens when you have either a Terminal Condition or an Irreversible Condition.

You are encouraged to discuss your values and wishes with your family or chosen person, as well as your physician.

## Duration

The Directive remains in effect until you revoke it. No other person may do so.

## Additional Requests

You can also list treatments you would like and treatments you do not want in specific circumstances.
